1. Introduction

This is the User Manual for version 1.1 of the Team Rocket Online Ordering System. Please refer to the table of contents for instructions on any specific topics.

This User Manual (UM) provides the information necessary for customers and administrators to effectively use the Team Rocket Online Ordering System.

1.1 User Overview

By using the Team Rocket Online Ordering System, customers can order an endless array of items through our website ranging from Pokemon, Tech, and so much more. After creating an account, users are then able to browse through our extensive catalog and find something that is right for them.

Users will also be able to subscribe to a plan that will grant the user game changing perks that will level up your Pokémon experience. These perks include weekly letters containing codes that access hidden parts of your Pokedex, receive weekly loot crates containing goodies such as Ultraballs, Potions, and even Rare Candy.

1.2 Admin Overview

If granted admin permissions, the user will be able to see and process orders made by customers through the order management tab. The admin will then be able to mark corresponding orders as shipped. Once marked as shipped, the user that ordered the item will then see their order status as shipped.

In addition to that, accounts that have admin privileges will be able to update the inventory through the website via the inventory management tab, here the admin will be able to add new items into the catalog and list the price, stock, and image.

Lastly, Admin will be able to update subscriptions via the manage subscriptions tab. Here the admin will be able to create new subscription plans.

2. Legal Disclaimer

Us at Team Rocket™ are not liable for any legal issues including but not limited to: Failure to deliver product, overpriced pokemon items, or attacks from wild pokemon. Please contact our lawyers for any further questions.

3. Using the System

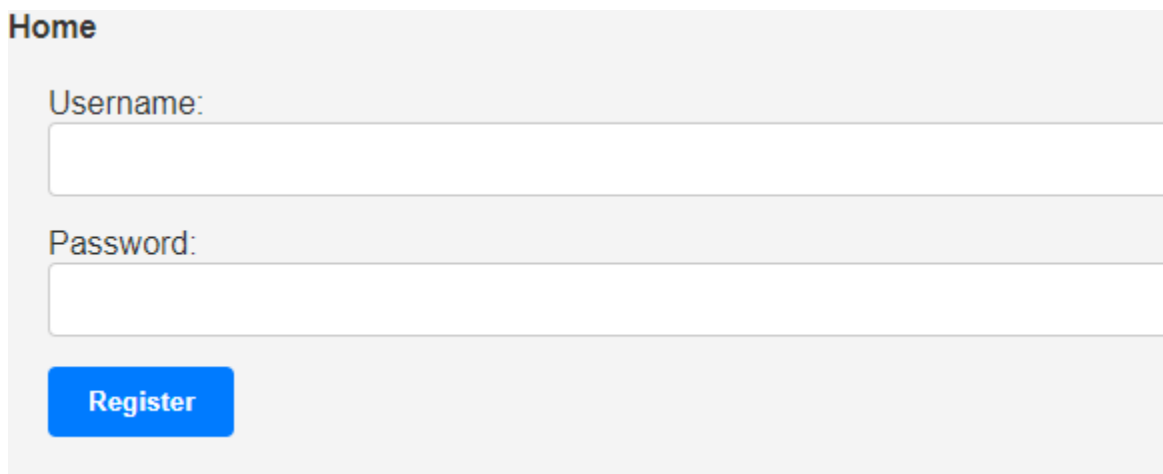

Here we will walk through each feature of the system, starting with account creation and continuing through every other function. There will be separate sections for customer and administrator accounts.

3.1 Account Creation

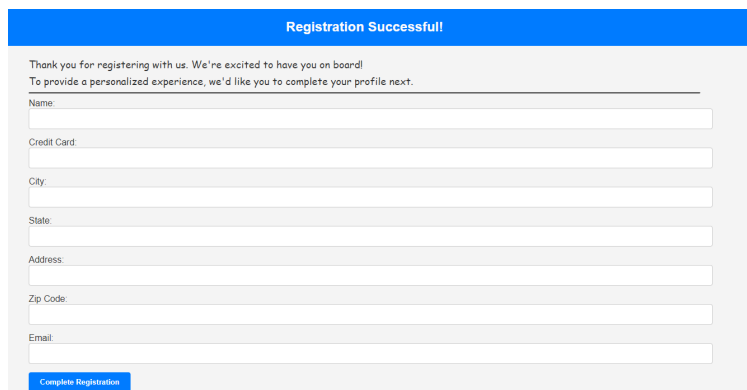

To create an account, first navigate to the “Register” heading highlighted below:

Next use the provided text fields to insert your desired Username and Password:

The image shows a registration form on a light gray background. At the top left, the word 'Home' is written in a bold, black font. Below it, the label 'Username:' is followed by a white text input field. Further down, the label 'Password:' is followed by another white text input field. At the bottom of the form, there is a blue rectangular button with the word 'Register' in white text.

Finally, complete the additional registration fields to personalize your shopping experience:

The image shows a page titled 'Registration Successful!' in a white box at the top. Below the title, there is a message: 'Thank you for registering with us. We're excited to have you on board! To provide a personalized experience, we'd like you to complete your profile next.' This is followed by a series of white text input fields for personal information: 'Name', 'Credit Card', 'City', 'State', 'Address', 'Zip Code', and 'Email'. At the bottom of the form, there is a blue rectangular button with the text 'Complete Registration' in white.

3.1.1 Logging In

To log in to your newly created account, navigate to the highlighted “Login” heading:

Next, just enter in your created Username and Password, and you will be successfully logged into the ordering system.

3.2 Order Placement

To place an order, first navigate to the highlighted “Place an Order” heading from your User Dashboard:

Now, select which items you would like to purchase. Next fill out your shipping information in the provided fields, and click the “Place Order” button:

Shipping Address:

Address Line 1
Address Line 2 (optional)
City
State
Zip Code
Country

3.3 Customer Profile

To view your customer profile, simply navigate to the “Customer Profile” heading from your User Dashboard, highlighted here:

From this page, you can view and update your information on file with us, along with viewing any orders that you have placed.

3.4 Browsing the Catalog

To browse our full catalog, simply navigate from your User Dashboard to the “Catalog” heading, highlighted below:

From here you can view our full catalog of products that we have to offer.

3.5 Subscriptions

To view every subscription that we offer, navigate to the highlighted “Subscribe” Heading from your User Dashboard. From here you will be shown an overview of each subscription, and a button to subscribe:

4. Use as an Administrator

As an administrator, there are a few extra features that are unlocked within the ordering system. Here we will list and instruct on how to use those features. The administrator login process is identical to that of a regular user, the only difference is that your main page will be the Administrator Dashboard as opposed to the User Dashboard.

4.1 Subscription Management

.To create a new subscription, navigate to the highlighted “Manage Subscriptions” heading:

Now just fill in the information for your new subscription, and click the “Create Subscription” button.

4.2 Inventory Management

To add a new item, or update an existing one, first navigate to the “Inventory Management” heading highlighted below:

On this page you will be able to create a new item or make changes to the existing ones.

4.3 Order Management

To view existing orders, or update shipping status, navigate to the “Order Management” heading highlighted below:

From here you can view all existing orders, and mark orders as shipped.
