Our application/system name is **Team Rocket Special Sales**.

The Team Rocket Special Sales site is where you can find anything related to the pokemon wilderness. Pokeballs, pokemon, pokedexes, we have it all! This is a site similar to amazon and dropshipping services in which it takes in orders from users for listed products. Users are able to make an order on our site by selecting their desired products, the amount they wish to buy, and inputting their information. This includes their payment information and connected addresses. When a person completes an order, the site will decrease the number of stock on the item purchased, to imitate real limited stock of items. Users can also create an account on our site with a username and password. The site also has subscription services, with multiple subscription options one can choose from. You can set different amounts of time for the subscription (weekly, biweekly, etc), and you can set up a subscription for any product in our catalog.

## FAQ

Q1. How can I check when my order will arrive?

A. Under the orders page, you will see the estimated date of delivery for your order.

Q2. How do I know which subscription plan am I on?

A. In your profile page, under the subscriptions section, it will state your subscription plan, when your subscription will expire and need renewal, and the cost of your subscription history.

Q3. Will out of stock items ever come back on stock?

A. Items getting restocked will be on irregular intervals, depending on the supplier of the item.

Q4. Will the product list expand further?

A. The product list will most definitely expand further based on our suppliers.

Q5. When will sales happen for certain products?

A. Sales will happen at random and occasionally for holidays.

Q6. Is there a page where we can see our order history and current orders?

A. Yes, in your home page there will be an Orders button that will redirect you to the Orders page. Here, you can see your current orders and order history.

Q7. Is there a way to filter items in different categories?

A. Yes you can filter out items based on their category, name, or by price and many more. You can also sort the items on the storepage too by name, price, etc.

### **Business Rules**

1. Every order must have an address(billing and delivery), payment method (not information), the date of order, and the customer's account number.
2. A customer cannot use two methods of payment for one order (otherwise card taxes can jump up higher).
3. Every order made by a customer must go into their order history and stay in there, regardless if it's canceled, in transport, or even from a decade ago.
4. Orders cannot be refunded once a week has passed since arrival.
5. Subscriptions cannot be refunded after a week since purchase, but can be cancelled from charging in the future.
